

Sheffield Plan – Updated position on Housing Land Supply

19/12/2024

The updated total housing land supply from 2022 to 2039 is **34,473 units**.

The updated 5-year housing land supply from 2025 to 2030 is **10,278 units**.

Over the Plan period, there would be a **shortfall** of:

- **207 units** assuming an annual housing requirement of 2,040 units
- **3,539 units** assuming an annual housing requirement of 2,236 units
- **6,140 units** assuming an annual housing requirement of 2,389 units (the new LHN)
